Lew —

Tomorrow, the Supreme Court will make one of the most important decisions in American history: they'll rule on health care reform.

No matter what happens, Republicans will never stop trying to tear this landmark law to pieces-- along with the rest of President Obama's agenda.

[With only 72 hours until the critical FEC deadline and 24 hours until the health care decision, standing behind President Obama is more important than ever. Could you donate \\$25? Your gift will be triple matched!](#)

GOP Super PACs have spent millions to attack Obamacare. **Mitt Romney has pledged to repeal it on day one if the Supreme Court doesn't.**

Regardless of tomorrow's outcome, we can't let them win. Please join me in the fight for health care reform: <http://www.dscc.org/saveobamacare>

Thanks for your help,

Crystal King
Political Director

Lew --

As I write you, the Supreme Court of the United States is preparing to issue its decision on the constitutionality of President Obama's health care law.

If the Court strikes down the law, Democrats will need to redouble our efforts, fighting to ensure universal health care that's affordable and accessible to every American is a reality.

If the Court upholds the law, dangerous Tea Party extremists will go on a rampage. Backed by Super PAC's and shadowy front groups like Karl Rove's Crossroads GPS, **they'll do everything in their power to defeat President Obama, demonize Democrats who fought for health care reform and, if they win the election, dismantle the law piece-by-piece.**

Either way, Democrats are in for a tough fight. That's why I'm counting on you to stand with me and rush your contribution of \$3 or more to our Health Care Rapid Response Fund right now.

The Affordable Care Act represents a giant step forward for every American who lived in fear of bankruptcy because of illness.

My father, Ted Kennedy, spent his entire political career fighting tooth and nail for universal health care. Together, we fought for a holistic approach to health, and championed the Mental Health Parity Law to ensure safeguards and support for families in need across the nation. If he were here, he would be proud of what we were able to accomplish.
